New Delhi

PROJECTS

FoodJunction

Swiggy Zomato Expense Tracker

Jan 2023 - Present

- Get insights of your food adventures from Zomato and Swiggy.
- Track expenses and get complete visual insights of your food habits
- Link: <https://shorturl.at/CegJ1>

Music Academy

Online Music Learning Platform

Jan 2023 - Present

- Built an interactive platform for learning music with customizable courses and user management.
- Tech Stack: Next.js, TypeScript, Tailwind CSS
- Integrated dynamic page routing and API handling with Next.js.
- Styled with Tailwind CSS for a responsive and clean user interface.
- Implemented type safety and improved maintainability using TypeScript.
- Deployed on Vercel for efficient and scalable hosting
- Link: <https://music-academy-topaz.vercel.app/>

Mystery Message

Jan 2023 - Present

- Next.js for server-side rendering and routing
- NextAuth.js for secure authentication
- Shadcn UI for modern, customizable UI components
- Tailwind CSS for responsive design
- TypeScript for type-safe coding
- Vercel for seamless deployment
- Link: <https://mystery-msg.vercel.app/>

SaaS Product

Jan 2023 - Present

- Next.js: Utilized for efficient server-side rendering and dynamic routing.
- Clerk: Implemented for secure and comprehensive user authentication and management.
- DaisyUI: Integrated for pre-designed UI components, offering a customizable and user-friendly interface.
- Acertinity UI: Used for additional UI customization, enhancing design flexibility.
- Tailwind CSS: Employed for building a responsive design with a mobile-first approach.
- TypeScript: Leveraged to enforce type safety and reduce runtime errors in development.
- Vercel: Used for seamless deployment and continuous integration, providing fast and reliable hosting
